PROFILE

Computer Science graduate at KNUST passionate about building smart, user-friendly applications to solve real-world problems. Passioned in mobile and web development, machine learning, and integrating voice assistants into apps. Strong interest in AI/ML and automation with hands-on project experience in weather apps, phishing detection, and productivity tools.

EDUCATION

BSc. Computer Science

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

Graduation: September 2025

WASSCE (General Science)

Anglican Senior High, Kumasi, Ghana September 2018 -September 2021

WORK EXPERIENCE

Software Engineer | Kumasi Metropolitan Assembly | 3-month internship

- Gained foundational exposure to software project workflows.
- Assisted in basic development and documentation tasks.

Software Engineer | Obra Sabonay Limited | 1 year

- Designed and maintained responsive frontend interfaces utilizing Angular, Ionic, and Tailwind CSS.
- Developed API routes and backend services using Supabase to support core web functionality.
- Implemented comprehensive Playwright end-to-end test suites to maintain high code quality and prevent regression during sprint deployments.
- Utilized modern build systems (Vite) and Git version control in an iterative development workflow.

PROJECT

Weather Forecast App

React Native, OpenWeatherMap API

• Displays current weather and 5-day forecast based on user location.
• Includes a search bar for location-based queries.

• Currently integrating a voice assistant using Wit.ai.

Conference Room Booking System

React, FastAPI, Firebase

• Manages room bookings with calendar sync and role-based access.

• Integrated with Google Cloud and deployed with CI/CD pipeline.

CERTIFICATION

• IBM Introduction to Artificial Intelligence – IBM (2025)

SKILLS & TECHNOLOGIES

Languages & Frameworks: JavaScript, React.js, React Native, Python, C++, Java

Web & Mobile Development: HTML, CSS, Tailwind CSS, Android Studio, RESTful APIs

Databases & Tools: MySQL, MongoDB, Firebase, Git, GitHub, VS Code

AI/ML & Automation: BERT, Scikit-Learn, Pandas, NumPy, Python Scripting, Wit.ai

LANGUAGES

• English

• Hausa

• Asante Twi
